**MODEL
69**
JUNIOR TARGET
SHOOTER'S SPECIAL

In addition to all the advantages of a standard 69, a Lyman 57 rear sight and blade type front sight on the Junior Target Shooter's Special gives you a clearer, finer sight picture, while the addition of a sling to the forearm sling swivel gives you the steadiness that means bullseyes, time and time again. The famous Winchester Speed Lock, cocking on the opening of the bolt, is instantaneous, and trigger mechanism crisp and dependable. The convenient side lever safety positively locks both firing pin and bolt handle. All of Winchester's gunmaking skill is yours shot after shot . . . a rifle the junior shooter can really score with, one with a great reputation for accuracy and reliable performance.
